

Technology

“Any sufficiently advanced technology is indistinguishable from magic.”

--Arthur C. Clarke

You are invited to join the San Marcos Writing Project for its “**Everyday Technology**” workshop. The SMWP Tech Team will share some of the best technology/writing lessons from the past 10 years of the SMWP Summer Institute. Our goal is to share with you some of the most useful and practical ideas we’ve seen practicing teachers use in their classrooms.

The format of the class will be very open, with plenty of time for immediate hands-on **exploration**: Lessons & activities of various levels of difficulty will be presented, then you get time on the computers to investigate, examine, and experiment with the lessons you are most interested in or feel are most applicable to your teaching. The workshop will be held in a computer lab on the Cal State San Marcos campus so you can immediately practice what you are learning!

- WHO:** TEACHERS INTERESTED IN LEARNING TECH IDEAS FOR EVERYDAY USE IN THEIR CLASSROOM
- WHEN:** SATURDAY, APRIL 28TH & SATURDAY, MAY 5TH, 9:00 A.M. - 12:00 P.M.
- WHERE:** UNIVERSITY HALL, CSUSM (COMPUTER LAB TBD)
